Testimonial for Freeman Baker Associates

I am writing to thank Freeman Baker Associates for their refreshing and skilled help with not just our accounting but our business outlook.

We appointed Freeman Baker as our accountants this year and have already received a vast amount of help from them. Recently our account manger, Paul Pointer, initiated a meeting with us to talk about the possibilities for the future of our business. This was not the usual dry old flannel about tax and expenses we had come to expect from other accountants but a wide reaching discussion which stimulated new ideas.

We are also thankful that another partner recently phoned us up offering help with our end of year P35 plus paperwork. Quite refreshing.

We would not hesitate to recommend their professional and energetic services to others.

Alan Carter 
Director PSSL Ltd and Heat-4-Sure Ltd.
